

Tribhuvan University

2080

Bachelor Level **4 Yrs. Prog.** / Humanities / I Year

Full Marks: 70

Psychology (Psy. 421) : Introduction to Psychology

Time: 3 hrs.

Candidates are required to give their answers in their own words as far as practicable. The figures in the margin indicate full marks.

Attempt any TWO questions from Group A and FOUR from Group B

Group "A" (Long Answer Question)

2×15=30

1. Critically evaluate different theories of emotion and elaborate on the relationship between motivation and emotion.
2. Explain the experimental method as one of the suitable methods of psychological investigation. Also enlist some ethical issues that the researcher needs to address during psychological research.
3. Differentiate behavioural theories from cognitive theories of learning and explain the utility of observational learning theory.

Group "B" (Short Answer Question)

4×10=40

4. "Human behaviours cannot be completely understood without the knowledge of biological factors in human behaviour". Justify.
5. How do trace decay, interference, and repression explain human forgetting?
6. Illustrate the types and processes of concept formation.
7. Critically evaluate g-factor and multifactor theories of intelligence.
8. Explain personality development from the perspective of psychodynamic theory.
9. Illustrate different principles of perceptual organization.
